# BOARD PERFORMANCE EVALUATION

## WORKSHOPS

Dynamic Concepts Limited facilitated extremely exciting Board Performance Evaluation assignments in the second and third quarter of 2023.

Our gratitude goes to NAPSA and ZCCM-IH for awarding us the contracts to facilitate their Board Performance Evaluations.

The Board Performance Evaluation is an exercise that we highly recommend that institutions should be conducting annually for their Boards in order to evaluate their performance as a Board and as individual Directors. Boards are appointed for the purpose of providing strategic direction by governing and providing oversight functions to the institution.

Directors should be evaluated as to assess their individual contributions to the Board. Institutions make progress based on the quality of contributions made by the Board of Directors.

We do express our gratitude to NAPSA for the award of contract to facilitate a Board Performance Evaluation. We do wish the Board of NAPSA continued success in the new year and beyond.

Having well informed Board Committees is a key to the attainment or realization of the organizational Strategic Objectives. It is from this background that we do recommend that organizations or institutions should have their Board Committees trained in Corporate Governance tailored for the Board Committees.
